

SLS SLTC SERIES

ENVIRONMENTALLY FRIENDLY TENNIS COURT LIGHTING SYSTEM

FEATURES & BENEFITS

HOUSING

- One-piece formed and welded aluminum housing
- Two mills minimum of electrostatically applied powder coating
- Standard finishes include black, green, and bronze

LENS ASSEMBLY

- Extruded aluminum frame with clear flat tempered glass lens
- The lens is sealed from the elements with cellular urethane foam gasket
- Assembly is mounted to the housing with concealed hinges and secured with stainless steel captive fasteners

OPTICS

- Computer designed to provide a forward directional, sharp cutoff and uniform light distribution pattern
- Made of super high purity specular aluminum
- Uses standard BT-56 1000 watt metal halide lamp for true color rendition

ELECTRICAL

- Ballast is factory mounted to a galvanized steel plate for added support and strength
- Isolated ballast compartment creates cooler operation for prolonged ballast life
- Multi-Tap (120, 208, 240, 277V) or 480V ballast
- UL 1598 wet location listed

THE COMPLETE HIGH QUALITY LIGHTING SYSTEM

Dependable and strong, Hubbell Lighting's SLTC Series lighting system delivers the most perfect lighting possible under any condition. Designed for optimal beam utilization, good playability, maximum energy efficiency, and minimal environmental impact, the SLTC Series lighting system fills the playing area with uniform, comfortable light.

Hubbell Lighting

Innovative luminaire design and optics minimize light spillage and keep the light where you want it – on the playing surface. Aesthetically pleasing, low mounted SLTC luminaires provide excellent lighting uniformity at night while blending in with the tennis court environment during the day.

The SLTC luminaires offer advanced design and superior performance with sharp cut-off and high quality construction, making this luminaire ideal for residential, high school, college and club tennis courts.

ARMS

- 4" diameter steel upsweep arms
- Two mills minimum of electrostatically applied powder coating
- Standard finishes include green, black, and bronze
- Mounting hardware included

Catalog Number	Description
SLTC-SA-1	Single Arm, bronze
SLTC-SA-2	Single Arm, black
SLTC-SA-7	Single Arm, green

TWIN & QUAD COUPLERS

- 4" common arm for twin and quad couplers
- Twin couplers good for 70° and 180° orientations
- Mounting hardware and set screws included

Catalog Number	Description
SLTC-TB-1	Twin Coupler, bronze
SLTC-TB-2	Twin Coupler, black
SLTC-TB-7	Twin Coupler, green
SLTC-QB-1	Quad Coupler, bronze
SLTC-QB-2	Quad Coupler, black
SLTC-QB-7	Quad Coupler, green

SHROUD

- Aesthetic cover with matching powder coat finish
- Shroud size varies with pole diameter
- Installation requires no tools

Catalog Number	Description
SHROUDX-M51	Shroud, bronze
SHROUDX-M50	Shroud, black
SHROUDX-M57	Shroud, green

NOTE: Replace X with 4-4" poles, 5-5" poles, 6-6" poles
